Franklin County Board of Commissioners

DATE SUBMITTED: May 11, 2021	PREPARED BY: Robert B. Mendez, Associate Engineer
Meeting Date Requested: May 18, 2021	PRESENTED BY: Craig Erdman, PE, County Engineer 
ITEM: (Select One) <input checked="" type="checkbox"/> Consent Agenda <input type="checkbox"/> Brought Before the Board Time needed:	
SUBJECT: Execute Public Works Contract for the Supply, Delivery and Metered Application of 30% Magnesium Chloride-Small Works Roster	
FISCAL IMPACT: The materials to be purchased are 100% funded through the 2021 County Road's budget. Planned quantity of 750 tons of Supply, Delivery, and Metered Application of 30% MgCl is estimated to cost \$128,377.50. Funds are budgeted in County Roads lines 5423410 and 5423420.	
BACKGROUND: Franklin County applies magnesium chloride to portions of its gravel road system in order to stabilize the road base. The amount typically spent on this work meets the requirements for award as a small works contract in accordance with RCW 39.04.155. In accordance with Franklin County purchasing policy (Resolution 2014-434), the Public Works Department contacted vendors on the MRSC small works roster for Franklin County by email in order to obtain quotations for the supply, delivery, and metered application of a 30% magnesium chloride solution. Over one hundred vendors (more than the five vendors required for the small works process) were contacted. Of all the vendors contacted, one (1) returned a quote, which were summarized in the previously submitted bid tabs. The bidders were all supplied the same specifications and estimated quantities. All bidders are required to provide a metered application. Application is expected in late May, weather permitting. The lowest bid obtained is from EnviroTech Services, Inc., of Greeley, Colorado, in the amount of \$171.17 per ton, sales tax included. The total material amount available for base stabilization (budget line items 5423410 and 5423420) is \$105,000. Budget line item 5423410 for \$50,000 and 5423420 for \$55,000. It should be noted that the amount budgeted for line item 5423420 is for permit work, which is only preparatory work. The applicants that applied for Base Stabilization Permits will be billed for the cost of the supply, delivery and metered application of 30% MgCl for each permitted sections of roads. This is the reason why the award amount is in excess of the budgeted amount for 2021 The price in 2020 was \$168.70 per ton, sales taxes included. April 20 th , 2021 the Board approved and signed the Award letter(s) to EnviroTech Services, Inc., of Greeley, Colorado. May 7 th , 2021 EnviroTech Services, Inc., returned the award letter signed to Public Works, and has submitted the appropriate insurance forms, performance bond, and the payment bond. Public Works is prepared to have the contract for the above mentioned project to be executed.	
RECOMMENDATION: Staff recommends the Franklin County Board of Commissioners approve the attached Resolution and execute the Public Works Contract between Franklin County and EnviroTech Services, Inc., of Greeley, Colorado.

39.12.030 Contract specifications must state minimum hourly rate — stipulation for payment — residential and commercial construction work.

(1) The specifications for every contract for the construction, reconstruction, maintenance or repair of any public work to which the state or any county, municipality, or political subdivision created by its laws is a party, shall contain a provision stating the hourly minimum rate of wage, not less than the prevailing rate of wage, which may be paid to laborers, workers, or mechanics in each trade or occupation required for such public work employed in the performance of the contract either by the contractor, subcontractor or other person doing or contracting to do the whole or any part of the work contemplated by the contract, and the contract shall contain a stipulation that such laborers, workers, or mechanics shall be paid not less than such specified hourly minimum rate of wage. If the awarding agency determines that the work contracted for meets the definition of residential construction, the contract must include that information.

(2) If the hourly minimum rate of wage stated in the contract specifies residential construction rates and it is later determined that the work performed is commercial and subject to commercial construction rates, the state, county, municipality, or political subdivision that entered into the contract must pay the difference between the residential rate stated and the actual commercial rate to the

contractor, subcontractor, or other person doing or contracting to do the whole or any part of the work under the contract.

[2009 c 62 § 1; 1989 c 12 § 9; 1945 c 63 § 2; Rem. Supp. 1945 § 10322-21.]

39.12.040 - Statement of intent to pay prevailing wages, affidavit of wages paid—Alternative procedure.

(1)(a) Except as provided in subsection (2) of this section, before payment is made by or on behalf of the state, or any county, municipality, or political subdivision created by its laws, of any sum or sums due on account of a public works contract, it is the duty of the officer or person charged with the custody and disbursement of public funds to require the contractor and each and every subcontractor from the contractor or a subcontractor to submit to such officer a "Statement of Intent to Pay Prevailing Wages". For a contract in excess of ten thousand dollars, the statement of intent to pay prevailing wages must include:

- (i) The contractor's registration certificate number; and
- (ii) The prevailing rate of wage for each classification of workers entitled to prevailing wages under RCW [39.12.020](#) and the estimated number of workers in each classification.

(b) Each statement of intent to pay prevailing wages must be approved by the industrial statistician of the department of labor and industries before it is submitted to the disbursing officer. Unless otherwise authorized by the department of labor and industries, each voucher claim submitted by a contractor for payment on a project estimate must state that the prevailing wages have been paid in accordance with the prefilled statement or statements of intent to pay prevailing wages on file with the public agency. Following the final acceptance of a public works project, it is the duty of the officer charged with the disbursement of public funds, to require the contractor and each and every subcontractor from the contractor or a subcontractor to submit to such officer an affidavit of wages paid before the funds retained according to the provisions of RCW [60.28.011](#) are released to the contractor. On a public works project where no retainage is withheld pursuant to RCW [60.28.011](#)(1)(b), the affidavit of wages paid must be submitted to the state, county, municipality, or other public body charged with the duty of disbursing or authorizing disbursement of public funds prior to final acceptance of the public works project. If a subcontractor performing work on a public works project fails to submit an affidavit of wages paid form, the contractor or subcontractor with whom the subcontractor had a contractual relationship for the project may file the forms on behalf of the nonresponsive subcontractor. Affidavit forms may only be filed on behalf of a nonresponsive subcontractor who has ceased operations or failed to file as required by this section. The contractor filing the affidavit must accept responsibility for payment of prevailing wages unpaid by the subcontractor on the project pursuant to RCW [39.12.020](#) and [39.12.065](#). Intentionally filing a false affidavit on behalf of a subcontractor subjects the filer to the same penalties as are provided in RCW [39.12.050](#). Each affidavit of wages paid must be certified by the industrial statistician of the department of labor and industries before it is submitted to the disbursing officer.

(2) As an alternate to the procedures provided for in subsection (1) of this section, for public works projects of two thousand five hundred dollars or less and for projects where the limited public works process under RCW [39.04.155](#)(3) is followed:

(a) An awarding agency may authorize the contractor or subcontractor to submit the statement of intent to pay prevailing wages directly to the officer or person charged with the custody or disbursement of public funds in the awarding agency without approval by the industrial statistician of

the department of labor and industries. The awarding agency must retain such statement of intent to pay prevailing wages for a period of not less than three years.

(b) Upon final acceptance of the public works project, the awarding agency must require the contractor or subcontractor to submit an affidavit of wages paid. Upon receipt of the affidavit of wages paid, the awarding agency may pay the contractor or subcontractor in full, including funds that would otherwise be retained according to the provisions of RCW [60.28.011](#). Within thirty days of receipt of the affidavit of wages paid, the awarding agency must submit the affidavit of wages paid to the industrial statistician of the department of labor and industries for approval.

(c) A statement of intent to pay prevailing wages and an affidavit of wages paid must be on forms approved by the department of labor and industries.

(d) In the event of a wage claim and a finding for the claimant by the department of labor and industries where the awarding agency has used the alternative process provided for in this subsection (2), the awarding agency must pay the wages due directly to the claimant. If the contractor or subcontractor did not pay the wages stated in the affidavit of wages paid, the awarding agency may take action at law to seek reimbursement from the contractor or subcontractor of wages paid to the claimant, and may prohibit the contractor or subcontractor from bidding on any public works contract of the awarding agency for up to one year.

(e) Nothing in this section may be interpreted to allow an awarding agency to subdivide any public works project of more than two thousand five hundred dollars for the purpose of circumventing the procedures required by subsection (1) of this section.

39.12.042 Compliance with RCW 39.12.040 — liability of public agencies to workers, laborers, or mechanics.

If any agency of the state, or any county, municipality, or political subdivision created by its laws shall knowingly fail to comply with the provisions of RCW [39.12.040](#) as now or hereafter amended, such agency of the state, or county, municipality, or political subdivision created by its laws, shall be liable to all workers, laborers, or mechanics to the full extent and for the full amount of wages due, pursuant to the prevailing wage requirements of RCW [39.12.020](#).

(1) Any contractor or subcontractor who files a false statement or fails to file any statement or record required to be filed under this chapter and the rules adopted under this chapter, shall, after a determination to that effect has been issued by the director after hearing under chapter [34.05](#) RCW, forfeit as a civil penalty the sum of five hundred dollars for each false filing or failure to file, and shall

The civil penalty under this subsection shall not apply to a violation determined by the director to be an inadvertent filing or reporting error. Civil penalties shall be deposited in the public works administration account.

To the extent that a contractor or subcontractor has not paid wages at the rate due pursuant to RCW [39.12.020](#), and a finding to that effect has been made as provided by this subsection, such unpaid wages shall constitute a lien against the bonds and retainage as provided in RCW [18.27.040](#), [19.28.041](#), [39.08.010](#), and [60.28.011](#).

(2) If a contractor or subcontractor is found to have violated the provisions of subsection (1) of this section for a second time within a five year period, the contractor or subcontractor shall be subject to the sanctions prescribed in subsection (1) of this section and shall not be allowed to bid on any public works contract for one year. The one year period shall run from the date of notice by the director of the determination of noncompliance. When an appeal is taken from the director's determination, the one year period shall commence from the date of the final determination of the appeal.

The director shall issue his or her findings that a contractor or subcontractor has violated the provisions of this subsection after a hearing held subject to the provisions of chapter [34.05](#) RCW.

Uniform arbitration act: Chapter [7.04A](#) RCW.

39.12.065 Investigation of complaints — hearing — remedies — penalties.

(1) Upon complaint by an interested party, the director of labor and industries shall cause an investigation to be made to determine whether there has been compliance with this chapter and the rules adopted hereunder, and if the investigation indicates that a violation may have occurred, a hearing shall be held in accordance with chapter [34.05](#) RCW. The director shall issue a written determination including his or her findings after the hearing. A judicial appeal from the director's determination may be taken in accordance with chapter [34.05](#) RCW, with the prevailing party entitled to recover reasonable costs and attorneys fees.

A complaint concerning nonpayment of the prevailing rate of wage shall be filed with the department of labor and industries no later than thirty days from the acceptance date of the public works project. The failure to timely file such a complaint shall not prohibit a claimant from pursuing a private right of action against a contractor or subcontractor for unpaid prevailing wages. The remedy provided by this section is not exclusive and is concurrent with any other remedy provided by law.

(2) To the extent that a contractor or subcontractor has not paid the prevailing rate of wage under a determination issued as provided in subsection (1) of this section, the director shall notify the agency awarding the public works contract of the amount of the violation found, and the awarding agency shall withhold, or in the case of a bond, the director shall proceed against the bond in accordance with the applicable statute to recover, such amount from the following sources in the following order of priority until the total of such amount is withheld:

(a) The retainage or bond in lieu of retainage as provided in RCW [60.28.011](#);

(b) If the claimant was employed by the contractor or subcontractor on the public works project, the bond filed by the contractor or subcontractor with the department of labor and industries as provided in RCW [18.27.040](#) and [19.28.041](#);

(c) A surety bond, or at the contractor's or subcontractor's option an escrow account, running to the director in the amount of the violation found; and

(d) That portion of the progress payments which is properly allocable to the contractor or subcontractor who is found to be in violation of this chapter. Under no circumstances shall any portion of the progress payments be withheld that are properly allocable to a contractor, subcontractor, or supplier, that is not found to be in violation of this chapter.

The amount withheld shall be released to the director to distribute in accordance with the director's determination.

(3) A contractor or subcontractor that is found, in accordance with subsection (1) of this section, to have violated the requirement to pay the prevailing rate of wage shall be subject to a civil penalty of not less than one thousand dollars or an amount equal to twenty percent of the total prevailing wage violation found on the contract, whichever is greater, and shall not be permitted to bid, or have a bid considered, on any public works contract until such civil penalty has been paid in full to the director. If a contractor or subcontractor is found to have participated in a violation of the requirement to pay the prevailing rate of wage for a second time within a five-year period, the contractor or subcontractor shall be subject to the sanctions prescribed in this subsection and as an additional sanction shall not be allowed to bid on any public works contract for two years. Civil penalties shall be deposited in the public works administration account. If a previous or subsequent violation of a requirement to pay a prevailing rate of wage under federal or other state law is found against the contractor or subcontractor within five years from a violation under this section, the contractor or subcontractor shall not be allowed to bid on any public works contract for two years. A contractor or subcontractor shall not be barred from bidding on any public works contract if the contractor or subcontractor relied upon written information from the department to pay a prevailing rate of wage that is later determined to be in violation of this chapter. The civil penalty and sanctions under this subsection shall not apply to a violation determined by the director to be an inadvertent filing or reporting error. To the extent that a contractor or subcontractor has not paid the prevailing wage rate under a determination issued as provided in subsection (1) of this section, the unpaid wages shall constitute a lien against the bonds and retainage as provided herein and in RCW [18.27.040](#), [19.28.041](#), [39.08.010](#), and [60.28.011](#).

39.12.070 - Fees authorized for approvals, certifications, and arbitrations.

(1) The department of labor and industries may charge fees to awarding agencies on public works for the approval of statements of intent to pay prevailing wages and the certification of affidavits of wages paid. The department may also charge fees to persons or organizations requesting the arbitration of disputes under RCW [39.12.060](#). The amount of the fees shall be established by rules adopted by the department under the procedures in the administrative procedure act, chapter [34.05](#) RCW. Except as provided in subsection (3) of this section, the fees shall apply to all approvals, certifications, and arbitration requests made after the effective date of the rules. All fees shall be deposited in the public works administration account. The department may refuse to arbitrate for contractors, subcontractors, persons, or organizations which have not paid the proper fees. The department may, if necessary, request the attorney general to take legal action to collect delinquent fees.

(2) The department shall set the fees permitted by this section at a level that generates revenue that is as near as practicable to the amount of the appropriation to administer this chapter, including, but not limited to, the performance of adequate wage surveys, and to investigate and enforce all alleged violations of this chapter, including, but not limited to, incorrect statements of intent to pay prevailing wage, incorrect certificates of affidavits of wages paid, and wage claims, as provided for in this chapter and chapters [49.48](#) and [49.52](#) RCW. However, the fees charged for the approval of statements of intent to pay prevailing wages and the certification of affidavits of wages paid shall be forty dollars.

(3) If, at the time an individual or entity files an affidavit of wages paid, the individual or entity is exempt from the requirement to pay the prevailing rate of wage under RCW [39.12.020](#), the department of labor and industries may not charge a fee to certify the affidavit of wages paid. 39.12.080 - Public works administration account.

The public works administration account is created in the state treasury. The department of labor and industries shall deposit in the account all moneys received from fees or civil penalties collected under RCW [39.12.050](#), [39.12.065](#), and [39.12.070](#). Appropriations from the account may be made only for the purposes of administration of this chapter, including, but not limited to, the performance of adequate wage surveys, and for the investigation and enforcement of all alleged violations of this chapter as provided for in this chapter and chapters [49.48](#) and [49.52](#) RCW. During the 2017-2019 fiscal biennium the legislature may direct the state treasurer to make transfers of moneys in the public works administration account to the state general fund. (3) The individual is customarily engaged in an independently established trade, occupation, profession, or business, of the same nature as that involved in the contract of service, or the individual has a principal place of business for the business the individual is conducting that is eligible for a business deduction for federal income tax purposes other than that furnished by the employer for which the business has contracted to furnish services;

WAC 296-127-022 Overtime according to RCW [49.28.065](#).

(1) Work performed on public works contracts will not require the payment of overtime rates for the first two hours worked in excess of eight hours per day when the employer and employee voluntarily enter into an agreement wherein the employee will work up to ten hours per day in a four-day week to accomplish forty hours of work.

(2) Recognizing that there may be days when a full ten hours of work is not available, the remainder of the forty hours may be made up on another work day or days within the same work week, except work performed on Saturdays, Sundays, and holidays is subject to the established prevailing overtime provisions for a given trade or occupation, as provided in chapter [39.12](#) RCW.

(3) For the purpose of this section an agreement must:

(a) Have been authorized by employees who bargained collectively with their employers through representatives of their own choosing; or

(b) Be obtained in writing, signed, and dated by both parties; and

(c) Be entered into individually with each employee; and

(d) Be entered into separately for each public works project, except that an employer, at its option, may obtain an annual authorization; and

(e) State the name of the public works project with specificity; and

(f) Be entered into voluntarily by the employer and employee.

(4) Each employer must retain copies of the individual employee authorization agreements required pursuant to subsection (3) of this section for three years from the date of acceptance of the public works project by the contract awarding agency. Absence of an authorization record for an employee shall be deemed per se evidence of lack of that employee's authorization. Such records are

payroll records, subject to the requirements of WAC [296-127-320](#).

(5) It is prohibited to work more than ten hours in any calendar day on a public works project except in cases of extraordinary emergency, such as danger to life or property.

(6) Notwithstanding the above provisions, overtime rates must be paid for all hours worked in excess of forty hours per week.

(7) This section provides a minimum public works overtime standard, and does not supersede prevailing overtime wage rates established under the authority of chapter [39.12](#) RCW.
