- (4). That passwords are significantly different from the previous four (4) passwords. Passwords that increment by simply adding a number are not considered significantly different.

- h. When accessing Confidential Information, Data, Category 4 Data, Sensitive Personal Information, and Materials from an external location (the Data will traverse the Internet or otherwise travel outside the Contractor's network), mitigate risk and enforce password and logon requirements for users by employing measures that include:

- (1). Ensuring mitigations applied to the system don't allow end-user modification;

- (2). Not allowing the use of dial-up connections;

- (3). Using industry standard protocols and solutions for remote access. Examples would include RADIUS and Citrix;

- (4). Encrypting all remote access traffic from the external workstation to Trusted Network or to a component within the Trusted Network. The traffic must be encrypted at all times while traversing any network, including the Internet, which is not a Trusted Network;

- (5). Ensuring that the remote access system prompts for re-authentication or performs automated session termination after no more than fifteen (15) minutes of inactivity; and

- (6). Ensuring use of Multi-Factor Authentication to connect from the external end point to the internal end point.

- i. Passwords or PIN codes may meet a lesser standard if used in conjunction with another authentication mechanism, such as a biometric (fingerprint, face recognition, iris scan) or token (software, hardware, smart card, etc.) in that case:

- (1). The PIN or password must be at least five (5) letters or numbers when used in conjunction with at least one other authentication factor;

- (2). Must not be comprised of all the same letter or number (11111, 22222, aaaaa, would not be acceptable); and

- (3). Must not contain a "run" of three or more consecutive numbers (12398, 98743 would not be acceptable).

- j. If the Contract specifically allows for the storage of Confidential Information on a Mobile Device, passcodes used on the device must:
 - (1). Be a minimum of six (6) alphanumeric characters;
 - (2). Contain at least three unique character classes (upper case, lower case, letter, number); and
 - (3). Not contain more than a three consecutive character run. Passcodes consisting of (12345, or abcd12 would not be acceptable).
- k. Render the device unusable after a maximum of five (5) failed logon attempts.

7. **Protection of Data.** The Contractor agrees to store Data on one or more of the following media and protect the Data as described:

- a. **Hard disk drives.** For Data stored on local workstation hard disks, access to the Data will be restricted to Authorized User(s) by requiring logon to the local workstation using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards.
- b. **Network server disks.** For Data stored on hard disks mounted on network servers and made available through shared folders, access to the Data will be restricted to Authorized Users through the use of access control lists which will grant access only after the Authorized User has authenticated to the network using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on disks mounted to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
- c. **Optical discs (CDs or DVDs) in local workstation optical disc drives.** Data provided by DCYF on optical discs which will be used in local workstation optical disc drives and which will not be transported out of a Secure Area. When not in use for the contracted purpose, such discs must be Stored in a Secure Area. Workstations which access Data on optical discs must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
- d. **Optical discs (CDs or DVDs) in drives or jukeboxes attached to servers.** Data provided by DCYF on optical discs which will be attached to network servers and which will not be transported out of a Secure Area. Access to Data on these discs will be restricted to Authorized Users through the use of access control lists which will grant access only after the Authorized User has authenticated to the network using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on discs attached to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
- e. **Paper documents.**
 - (1). All paper documents must be protected by storing the records in a Secure Area, with access controlled through use of a key, card key, combination lock, or comparable mechanism, and which is only accessible to authorized personnel.
 - (2). When being transported outside of a Secure Area, paper documents must be under the physical control of Contractor staff with authorization to access the Data.

(3). Paper documents will not be secured or stored in a motor vehicle any time a staff member is away from the motor vehicle.

(4). Paper documents will be retained in a Secure Area, per the state of Washington records retention requirements.

f. Data storage on portable devices or media.

(1). Except where otherwise specified herein, Data shall not be stored by the Contractor on portable devices or media unless specifically authorized within the terms and conditions of the Contract. If so authorized, the Data shall be given the following protections:

(a). Encrypt the Data; and

(b). Control access to devices with a Unique User ID and Hardened Password or stronger authentication method such as a physical token or biometrics; and

(c). Manually lock devices whenever they are left unattended and set devices to lock automatically after a period of inactivity, if this feature is available. Maximum period of inactivity is fifteen (15) minutes; and

(d). Apply administrative and physical security controls to Portable Devices and Portable Media by:

i. Keeping them in a Secure Area when not in use;

ii. Using check-in/check-out procedures when they are shared; and

iii. Taking quarterly inventories.

(2). When being transported outside of a Secure Area, Portable Devices and Portable Media with Data must be under the physical control of Contractor staff with authorization to access the Data, even if the Data is encrypted. Portable Devices and Portable Media will not be secured or stored within motor vehicles at any time the staff member is away from the motor vehicle.

g. Data stored for backup purposes.

(1) DCYF Confidential Information may be stored on Portable Media as part of a Contractor's existing, documented backup process for business continuity or disaster recovery purposes. Such storage is authorized until such time as that media would be reused during the course of normal backup operations. If backup media is retired while DCYF Confidential Information still exists upon it, refer to Section 12 Data Disposition.

(2) Data may be stored on non-portable media (e.g. Storage Area Network drives, virtual media, etc.) as part of a Contractor's existing, documented backup process for business continuity or disaster recovery purposes. If so, such media will be protected as otherwise described in this exhibit. If this media is retired while DCYF Confidential Information still exists upon it, refer to Section 12 Data Disposition.

h. Cloud storage. Data requires protections equal to or greater than those specified elsewhere within this exhibit. Cloud storage of Data is problematic as neither DCYF nor the Contractor has control of the environment in which the Data is stored. For this reason:

- (1). Data will not be stored in any consumer grade Cloud solution, unless all of the following conditions are met:
 - (a). Contractor has written procedures in place governing use of the Cloud storage and Contractor attests in writing that all such procedures will be uniformly followed;
 - (b). The Data will be Encrypted while within the Contractor network;
 - (c). The Data will remain Encrypted during transmission to the Cloud;
 - (d). The Data will remain Encrypted at all times while residing within the Cloud storage solution;
 - (e). The Contractor will possess a decryption key for the Data, and the decryption key will be possessed only by the Contractor and/or DCYF;
 - (f). The Data will not be downloaded to non-authorized systems, meaning systems that are not on either the DCYF or Contractor networks;
 - (g). The Data will not be decrypted until downloaded onto a computer or portable device within the control of an Authorized User and within either the DCYF or Contractor's network; and
 - (h). Access to the cloud storage requires Multi Factor Authentication or Two Step Authentication.
- (2). Data will not be stored on an Enterprise Cloud storage solution unless either:
 - (a) The Cloud storage provider is treated as any other Sub-Contractor, and agrees in writing to all of the requirements within this exhibit; or
 - (b) The Cloud storage solution used is FedRAMP certified.
- (3) If the Data includes protected health information covered by the Health Insurance Portability and Accountability Act (HIPAA), the Cloud provider must sign a Business Associate Agreement prior to Data being stored in their Cloud solution.

8. Method of Transfer.

- a. All Data transfers to or from the Contractor shall only be made by using the secure data.wa.gov portal provided by the state of Washington with login and hardened password security.
- b. The Contractor shall use an encrypted email account for electronic submissions which contain Confidential, and Personal Information, as defined in the General Terms and Conditions. Information regarding encrypted email accounts can be obtained at DCYF's website, located at: <https://www.dcyf.wa.gov/services/child-welfare-providers/encrypted-email>.

9. System Protection. To prevent compromise of systems which contain DCYF Data or through which that Data passes:

- a. Systems containing Data must have all security patches or hotfixes applied within three (3) months of being made available;
- b. The Contractor will have a method of ensuring that the requisite patches and hotfixes have been applied within the required timeframes;
- c. Systems containing Data shall have an Anti-Malware application, if available, installed; and

- d. Anti-Malware software shall be kept up to date. The product, its anti-virus engine, and any malware database the system uses, will be no more than one update behind current.

10. Data Segregation.

- a. Data must be segregated or otherwise distinguishable from non-DCYF data. This is to ensure that when no longer needed by the Contractor, all Data can be identified for return or destruction. It also aids in determining whether Data has or may have been compromised in the event of a security breach. As such, one or more of the following methods will be used for data segregation:

(1). Data will be kept on media (e.g. hard disk, optical disc, tape, etc.) which will contain no non-DCYF Data; and/or;

(2). Data will be stored in a logical container on electronic media, such as a partition or folder dedicated to Data; and/or;

(3). Data will be stored in a database which will contain no non-DCYF data; and/or;

(4). Data will be stored within a database and will be distinguishable from non-DCYF data by the value of a specific field or fields within database records; and

(5). When stored as physical paper documents, Data will be physically segregated from non-DCYF data in a drawer, folder, or other container.

- b. When it is not feasible or practical to segregate Data from non-DCYF data, then both the Data and the non-DCYF data with which it is commingled must be protected as described in this exhibit.

11. Confidentiality Protection. To safeguard confidentiality, and ensure that access to all Data is limited to authorized staff, the Contractor must:

- a. Ensure that the Contractor's Staff, Subcontractors, and the Subcontractors' Staff use Data solely for the purposes of accomplishing the services set forth in this Contract;
- b. Ensure that no Data is released, disclosed, published, modified, transferred, sold, or otherwise made known to unauthorized persons without the prior written consent of the individual named or as otherwise authorized by law;
- c. The Contractor shall not use, publish, transfer, sell or otherwise disclose any Confidential Information of a minor except as provided by law or with the prior written consent of the minor's parent, legal representative or guardian. If a child is a dependent of Washington State, then prior written consent must be obtained from DCYF; and
- d. Require that the Contractor's Staff and Subcontractors' Staff having access to Data sign a Statement of Confidentiality and Non-Disclosure Agreement (DCYF Form 03-374B), which can be found at this webpage: <https://www.dcyf.wa.gov/forms>. Data shall not be released to the Contractor's Staff person(s) or Subcontractors' Staff person(s) until the following conditions have been met:

(1). DCYF approves the Contractor's Staff person(s) or Subcontractors' Staff person(s), to work on this Contract; and

(2). If requested by DCYF, Contractor must submit the signed original Statement of Confidentiality and Non-Disclosure Agreement, signed by the Staff person(s) or Subcontractors' Staff person(s).

12. **Data Disposition.** Contractor is responsible to ensure that all Data, including paper and electronic records, is retained pursuant to Washington State retention standards. Prior to the destruction of any Data, the DCYF Contact specified for this contract, must be notified in writing and permission given in writing to destroy any such Data. When the contracted work has been completed or when the Data is no longer needed, Data shall be retained pursuant to the retention standards required by chapter 40.14 RCW, or returned to DCYF.

- e. Once written permission to destroy Data has been granted by DCYF to the Contractor, the following acceptable methods of destruction must be used:

Data stored on:	Will be destroyed by:
Server or workstation hard disks, or Removable media (e.g. floppies, USB flash drives, portable hard disks) excluding optical discs	Using a "wipe" utility which will overwrite the Data at least three (3) times using either random or single character data, or Degaussing sufficiently to ensure that the Data cannot be reconstructed, or Physically destroying the disk
Paper documents with sensitive or Confidential Information	Recycling through a contracted firm, provided the contract with the recycler assures that the confidentiality of Data will be protected.
Paper documents containing Confidential Information requiring special handling (e.g. protected health information)	On-site shredding, pulping, or incineration
Optical discs (e.g. CDs or DVDs)	Incineration, shredding, or completely defacing the readable surface with a coarse abrasive
Magnetic tape	Degaussing, incinerating or crosscut shredding

- b. If any Data is required to be destroyed pursuant to this Section, within fifteen (15) calendar days after completion of such destruction the Contractor shall complete and deliver to DCYF a signed Certification of Data Disposition, which can be found at this webpage:
<https://www.dcyf.wa.gov/forms>.

13. **Data shared with Subcontractors.** If Data provided under this Contract is to be shared with a subcontractor, the Contract with the subcontractor must include all of the data security provisions within this Contract and within any amendments, attachments, or exhibits within this Contract. If the Contractor cannot protect the Data as articulated within this Contract, then the contract with the subcontractor must be submitted to the DCYF Contact specified for this contract for review and approval.
14. **Notification of Compromise or Potential Compromise.** The compromise or potential compromise of DCYF shared Data must be reported to the DCYF Contact designated in the Contract within one (1) business day of discovery. If no DCYF Contact is designated in the Contract, then the notification must be reported to the DCYF Privacy Officer at: dcyfprivacyofficer@dcyf.wa.gov. Contractor must also take actions to mitigate the risk of loss and comply with any notification or other requirements imposed by law or DCYF.

15. **Breach of Data.** In the event of a breach by the Contractor of this Exhibit and in addition to all other

rights and remedies available to DCYF, DCYF may elect to do any of the following:

- a. Terminate the Contract;
- b. Require that the Contractor return all Data to DCYF that was previously provided to the Contractor by DCYF; or
- c. Suspend the Contractor's access to accounts and other information.

16. Public Disclosure.

- a. If a third party requestor seeks information of the Contractor for DCYF Data, a copy of the notice/request shall be emailed to DCYF by way of the DCYF Contracts and Procurement Office email at dcyf.contractdatabreach@dcyf.wa.gov within three calendar (3) days of third party request.
- b. DCYF Contracts and Procurement Office will respond to the Contractor on how to proceed with the request within five (5) calendar days of receiving such notification.
