<b>SUBJECT:</b> Telco Wiring and Repair Internet Service Agreement to provide broadband connectivity to between 651 Truman Ave, Richland Wa (SECOMM) and 7520 Sandifur Parkway, Pasco Wa (Pasco Fire Department, Station 83)	
<b>FISCAL IMPACT:</b> \$130 with tax non-recurring cost and monthly reoccurring costs of \$90 will be paid by Emergency Communications 13902 4200.	
<p><b>BACKGROUND:</b> We are currently, and have been for many years, been using Telco Wiring and Repair as a reseller of broadband connections to remote County facilities through the Franklin Public Utility District fiber infrastructure. We are in need to add additional broadband services to a new Emergency Communication tower location at 7520 Sandifur Parkway, Pasco. Telco has provided an agreement to provide fiber to this location for a non-recurring construction cost of \$115 plus tax. The monthly recurring cost for a 50Mbps fiber broadband connection is \$90 on a 36 month agreement.</p> <p>We are in the process of moving our Emergency Communication law enforcement radio equipment from HAPO Center to a more secure and environmental friendly facility at Station 83. With this transition we will discontinue a T1 circuit and replace it with a 50Mbps circuit for half the expense. A savings of approximately \$1100. Also, we will discontinue an electrical circuit located at HAPO Center and will not need to establish a new one at Station 83, thus more savings.</p>
